Mr. and Mrs. James Beale and daughter, Mary Ann,Clarence Beale of Lynchburg and Mr. and Mrs. John Henry Fulcher and son, of

**Can Black-Draught Help That Dull, Dopey Feeling?**

Yes, Black-Draught may help that dull, dopey feeling if its only reason you feel that way is because of constipation. Black-Draught, the friendly laxative, is usually prompt and thorough when taken as directed. It costs only a penny or less a dose. That's why it has been a best-seller with four generations. If you are troubled with such symptoms as loss of appetite, headache, upset stomach, flatulence, physical fatigue, sleeplessness, mental heaviness, bad breath — and if these symptoms are due only to constipation — then see what Black-Draught may do for you. Get a package today!

Prospect spent Saturday night and Sunday in the home of Mr. and Mrs. Willie Beale.

Mr. and Mrs. Watson Brittle, of Chase City and Mrs. Holmes Marks visited in the above home Sunday.

Mrs. Thomas Garrette is improving. Those calling to see her Wednesday evening were Mrs. Leonard Garrette, Mrs. Irvin Robertson,Mrs. Janie Chernault, Mrs. Nathalie Robertson and Mrs. Lula Beale. Mrs. Johnnie Carnefix is also getting along nicely.

ING OF "U. S." IX NUMBERS

wonder what it means when sign is designated "U. S. ute 6 Sat."

Yes like most highway users, probably think a U. S. Route means the highway is built maintained by the Federal gov. But you're wrong.

Sam doesn't have anything with it. The State Highway partment this week.

Highways are administered ered. No any other State ceived only their numbers ved by the American As- of State Highway Officials. e is to insure a uniform ction for highways that ss lines, explained the de-

stem makes it easier for map-readers to motor, say, ute to Florida. All you have get on U. S. Route 1 and ly.

airlift continues.

### DYNAMITERS OF FISH ARE ARRESTED

Dynamiters of fish were given pointed warning recently when Game Warden Henry Ratliff, of Buchanan County, arrested four of them and the Trial Justice gave each of them fines of $200 and sentences of 30 days in the county jail.

Two of these men were arrested originally, a third escaping across the state line into Kentucky. Warden Ratliff not only succeeded in apprehending this man, but arrested another who had left the state after committing a like offense last year. Thus all four were brought to trial and convicted.

The practice of killing fish through use of explosives is rapidly being broken up through the effective work of the wardens, and the willingness of the courts to mete out penalties commensurate to the offenses committed.

Protracted strike ends at the Ford plants.

### TURKEY HUNTERS BROUGHT TO TRIAL

Conservation Officer Bob Yates and Sussex Game Warden George Hawkes apprehended and brought to trial and conviction a turkey hunter who was known to have been violating the law for the past four years. In this case they came upon him yelping, with two gobblers approaching his blind.

### DDT DIP FOR FAMILY DOG WILL CONTROL TICKS

A DDT dip for the family dog will give effective protection against ticks in the early summer when the insects are at the height of their activity, says J. O. Rowell, entomologist at V. P. I.

It is easier to cover a dog thoroughly with DDT by dipping rather than dusting with powder, although a 10 per cent DDT powder may be used, Rowell explains. For a weekly dip, buy 50 per cent wettable powder and use in water according to directions on the package.

If it is not practical to prepare a dip for Fido and her pups, a satisfactory water-suspension spray can be made by mixing 4 ounces of 50 per cent wettable powder in one gallon of water. This spray can be applied with a small compressed air sprayer. Saturate the dog, and repeat the treatment about every two or three weeks during the "tick" season.

If properly applied, DDT is harmless to dogs, and gives them comfort and the family safety against ticks, Rowell says. It is not, however, effective after the ticks have already become attached to the dog.

Rowell warns that on the family cat, DDT should never be used. Cats are much less tolerant to this poison than dogs, and when they lick their fur they may eat eonugh DDT to cause illness and sometimes death.

### ANT CONTROL ADVISED

Ants of all species can be easily and effectively controlled with one application of 5 per cent chlordane dust applied directly on thetmounts of their nests, says J. O. Rowell, entomologist at V. P. I.

If it is not possible to locate the nests, Rowell suggests using chlordane sprays on lawns, flower gardens, and tree trunks where the ants are a nuisance. He recommends 4 pounds of 40 per cent chlordane wettable powder in 100 gallons of water as a spray.

Ants can be ke t out of the house by spraying 5 per cent chlordane in refined oil along runways. This spray will not stain rugs,woodwork, or furniture.

**THESE ARE ACCIDENTS *Before* THEY HAPPEN**

Turn through your newspaper and read the different ways people have met accidental death during the past 24 hours.

Nothing has happened to you. Your name is not there. But it doesn't mean it won't be there tomorrow.

Last year, accidents injured 10,300,000 persons and took 98,000 lives in the United States. YET, ON THE DAY BEFORE THOSE ACCIDENTS HAPPENED, THOSE PEOPLE WERE JUST AS SURE OF THEIR CONTINUED WELL-BEING AS YOU ARE THIS MINUTE.

Every time you walk down the stairs . . . every time you cross the street to the corner grocery . . . every time you smoke in bed . . . every time you replace a burned-out fuse, *you're actually taking your life in your hands!*

The ways in which accidents can lash out of nothingness to disfigure you . . . to make you a hopeless invalid . . . to snuff out your life, are too numerous for the mind to visualize. Accidents don't *just happen* — They are *caused,* usually by thoughtlessness or carelessness, or both. There's only one way to fight accidents. Think . . . *before* you act.

BE CAREFUL—THE LIFE YOU SAVE MAY BE YOUR OWN!

Carefulness is a watchword on the Norfolk and Western. Last year, for the fourth time, the Norfolk and Western was awarded the Harriman Memorial Gold Medal for the best safety record among Class I railroads throughout the nation — the highest safety honor that can be bestowed upon any railroad.

On the railroad, it's a day-by-day, hour-by-hour, minute-by-minute job — involving relentless vigilance, a continuous educational program, and the expenditure of millions of dollars for modern, protective tools and equipment.

**Norfolk and Western RAILWAY**
